# The New Jersey Corporate Wetlands Restoration Partnership

Collaborative Efforts Yielding Tangible Results

The NJ Corporate Wetlands Restoration Partnership  
(NJCWRP)

[www.njcwrp.org](http://www.njcwrp.org)

Revised 10/08/2024

## Working Together To Make A Difference

The New Jersey Corporate Wetlands Restoration Partnership (NJCWRP) is an innovative public-private initiative aimed at restoring, preserving, enhancing and protecting aquatic habitats throughout New Jersey. Bringing together corporations, federal and state agencies, non-governmental organizations and academia, the NJCWRP allows participants to contribute in a fundamental way to crucial projects involving the states coastal and inland wetlands and aquatics habitats.

The NJCWRP is unique not only in its collaborative approach to solving the problems facing New Jersey valuable water resources, but also in its ability to apply federal dollars to projects that improve the health of our coastlines, rivers, and waterways. Because company dollars are combined with governmental and other funds, the value of NJCWRP contributions is increased many fold. A company's ability to leverage funds is one of the many reasons the NJCWRP stands out in its conservation efforts.

## Corporate Contributions Support Important Projects

More than 34 corporate partners have contributed time, materials and money to facilitate selected projects. Since its inception in 2003 NJCWRP has received more than \$1,700,000 in contributions and pledges of in-kind services from its corporate business association and partners. These donations have resulted in more than 59 projects totaling \$21,640,000 which aided the preservation of more than 1,000 acres and 70 stream miles.

The NJCWRP has expanded greatly from its inception in 2003 and is an IRS recognized 501(c)3 public charity.

Collaborating with federal, local and non-governmental partners, NJCWRP funds projects including:

- Habitat Restoration
- Marshlands
- Fish passages
- Dam removals
- Species protection
- Education and outreach
- Cultural and historic projects

## Benefits of Participation

Participating companies are offered a unique opportunity to combine their contributions with federal and other dollars, making this one-of-a-kind effort truly effective in restoring, preserving, enhancing and protecting our nation's wetlands and aquatic habitats.

Participants:

- Are involved in tangible projects that yield critical environmental improvements.
- Multiply their contributions through matching funds.
- Instill employee pride and provide opportunities for employee involvement in NJCWRP projects.
- Enhance working relationships with government agencies and officials, conservation organizations, community groups and academia.
- Enjoy positive publicity from media coverage, awards and recognition events.
- Strengthen their corporate image as environmentally and socially conscious companies.
