New Jersey Corporate Wetlands Restoration Partnership

The New Jersey Corporate Wetlands Restoration Partnership

Collaborative Efforts Yielding Tangible Results

The NJ Corporate Wetlands Restoration Partnership (NJCWRP)

www.njcwrp.org

Revised 10/21/2026

Working Together To Make A Difference

The New Jersey Corporate Wetlands Restoration Partnership (NJCWRP) is an innovative public-private initiative aimed at restoring, preserving, enhancing and protecting aquatic habitats throughout New Jersey. Bringing together corporations, federal and state agencies, non-governmental organizations and academia, the NJCWRP allows participants to contribute in a fundamental way to crucial projects involving the states coastal and inland wetlands and aquatic habitats.

The NJCWRP is unique not only in its collaborative approach to addressing the challenges facing New Jersey's valuable water resources, but also in its ability to leverage federal funding to support projects that improve the health of our coastlines, rivers, and waterways. By combining corporate contributions with government and other funding sources, the NJCWRP multiplies the impact of each investment. This ability to leverage funds is one of the many ways the NJCWRP stands out in its commitment to conservation.

Corporate Contributions Support Important Projects

More than 36 corporate partners have contributed time, materials, and money to facilitate selected projects. Since its inception in 2003, NJCWRP has received more than $1,737,000 in contributions and pledges of in-kind services from its corporate business association and partners. These donations have resulted in more than 59 projects totaling $32 million which aided the preservation of 1,083 acres and 178 stream miles.

The NJCWRP has expanded greatly from its inception in 2003 and is an IRS recognized 501(c)3 public charity.

Collaborating with federal, local and non-governmental partners, NJCWRP funds projects including:

Habitat Restoration
Marshlands
Fish Passages
Dam Removals
Species Protection
Eduation and outreach
Cultural and Historic Projects

Benefits of Participation

Participating companies are offered a unique opportunity to combine their contributions with federal and other dollars, making this one-of-a-kind effort truly effective in restoring, preserving, enhancing and protecting our nation's wetlands and aquatic habitats.

Participants:

Are involved in tangible projects that yield critical environmental improvements.
Multiply their contributions through matching funds.
Instill employee pride and provide opportunities for employee involvement in NJCWRP projects.
Enhance working relationships with government agencies and officials, conservation organizations, community groups and academia.
Enjoy positive publicity from media coverage, awards and recognition events.
Strengthen their corporate image as environmentally and socially conscious companies.
